

(a) Do you encounter any difficulty while writing this lab? Please describe the problems in detail.

NO;

(b) Besides this lab, what else do you want to learn?

I have no idea

(c) Please give some feedbacks to the design of this lab. Positive or negative are both welcomed.

Good

(d) This is the first time for you to complete the organized code. How do you feel? Is the organized code better than writing from scratch?

I feel good

(e) So far, you have accomplished 4 labs. Please give a brief description about your learning progress.

Follow the instruction and google .
